NOTICE TO MARINERS.

LIGHT-HOUSE AT ABSECUM, NEW JERSEY.

In conformity with the Notice to Mariners of 10th November last, notice is hereby given that the Tower and keeper's dwelling at Absecum, N.J., are now completed, and a light will be exhibited therefrom, for the first time, at sunset on the 15th of January, 1857, and every night thereafter from sunset to sunrise.

The tower is of brick, unpainted, and is surmounted by an iron lantern painted black.

The illuminating apparatus is catadioptric of the first order of Fresnel, showing a fixed white light.

The focal plane has an elevation of 167 feet above mean tide; and the light should be seen, under favorable circumstances, from the deck of a vessel of ordinary size, at the distance of about 20 nautical miles.

The approximate position of this light, as deduced from the Coast Survey Chart, is

Lat. 39° 22' North

Long. 74° 25' West of Greenwich.

By order of the Light-house Board:

EDW'D M. YARD,

Light-house Inspector.

Philadelphia, *January* 8, 1857.

Restoration & Preservation

Thomas Point Shoal Lighthouse, MD

The U.S. Lighthouse Society has donated to many lighthouse preservation projects throughout the U.S. Most recently we were honored by being presented with the Preserve America Stewardship Award from The White House for our restoration work at Thomas Point Shoal Lighthouse.

Help Support Our Important Mission!

Education

The Keeper's Log magazine is the only one of its kind and has been published quarterly since 1984. Receive this award-winning publication as a benefit of membership.

The Society organizes domestic and international lighthouse tours. Many of our excursions gain access to lighthouses not normally open to the public. These trips are a great way to have fun, see lots of lights and learn about lighthouse history.
