

Thomas Point Shoal Lighthouse
United States Lighthouse Society
TOUR REQUIREMENTS 2021

We have limited the number of guests per tour in 2021 due to the pandemic. Every effort will be made to socially distance our guests before, during and after the tour.

The tour capacity is governed by the COVID-19 capacity limits according to the State of Maryland and Anne Arundel County guidelines and we reserve the right to change the limits at any time (up or down) in accordance with the prevailing limits in force

We take everyone's health very seriously. Even if you have been vaccinated, it is imperative for the entire group, including our Docents, Captain and crew that we protect them by requiring that you wear a mask covering nose and mouth at all times before, during and after the tour.

During the check-in procedure, your temperature will be tested, and you will be required to complete and provide a Wellness Form. In the event you remove your mask, you will be taken back to shore and will not be allowed to board the lighthouse. Your tickets will not be refunded and you will be held responsible for any cleaning costs for the tour boat and the lighthouse. Hand sanitizer will be provided at various locations for your convenience.
